Same column. What changes?

The same arrival changes classification

Original promise: 12:00

Late

Revised promise: 12:30

On time

Due-by-noon membership changes too

Original promise: 12:00

Late

Due by noon: included

Revised promise: 12:30

On time

Due by noon: excluded

Keep the proposal beside the agreement

Pending review

Producer + both consuming teams
review calculations and affected uses.

Alternative: retain original, add revision

Retained original field

promised_at

Additional field

revised_promise_at

Design approved. May it be published?

Design approval: producer + both consumers

2 November 2026

Planned effect

5 November 2026 · 13:00 UTC

Approved design. Release still pending.

Steward confirms

Consumer acceptance + migration evidence

Producer supplies

Validation results + rollout plan

A new field does not migrate consumers

Each consumer chooses

Promise rule + absent-revision treatment

Implementation

Consumer migration still needs evidence

Attach actual evidence after release

Producing execution

Actual run, input and output references
